

Possible Delays Due to Materials Delivery on West Drive

Two large flatbeds (74' X 15') loaded with steel girders have been scheduled for arrival on West Dr for Tuesday, 31 Jan and Wednesday, 01 Feb between 11:30 AM to 12:30 PM (weather permitting).

The flatbeds will be escorted by State Troopers and will require Manning Dr to be **closed** in both directions for about ten to twelve minutes while the trucks maneuver into place on West Dr for off-loading.

DOT and the Town will be notified in advance for necessary permits and approval regarding entry routes into the UNC campus, traffic control, and off-loading. These materials are for the bridge to be erected over West Dr.

There are no special events on campus scheduled during these days and all hospital, emergency agencies, and transit companies will be notified. Additional and detailed notifications will be disseminated on Monday, 30 Jan.
